Non-GAAP Financial Measures

We use certain non-GAAP financial measures as additional measures to enhance the understanding of our financial results. This presentation includes the following non-GAAP financial measures: adjusted net revenues, adjusted variable expenses, adjusted fixed expenses, and adjusted income before income taxes. We believe that these non-GAAP financial measures are important measures of our financial performance because they exclude certain items that may not be indicative of our core operating results and business outlook and may be useful to investors and analysts in evaluating the operating performance of the business and facilitating a meaningful comparison of our results in the current period to those in prior and future periods. These non-GAAP measures should be considered in addition to, rather than as a substitute for, measures of financial performance prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). A reconciliation of these non-GAAP measures to the most comparable financial measure presented in accordance with GAAP is included at the end of this presentation.

Cautionary Note Regarding Forward-Looking Statements

The following information contains certain forward-looking statements that reflect the Company’s current views with respect to certain current and future events and financial performance. These forward-looking statements are and will be, as the case may be, subject to many risks, uncertainties and factors relating to the Company’s operations and business environment which may cause the Company’s actual results to be materially different from any future results, expressed or implied, in these forward-looking statements. Any forward-looking statements are based upon information available to the Company on the date of this presentation. The Company does not undertake to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any statements expressed or implied therein will not be realized. Additional information on risk factors that could potentially affect the Company’s financial results may be found in the Company’s filings with the Securities and Exchange Commission.

Recent Enhancements and New Products

Fractional Shares Trading, now for European stocks and ETFs – allows investors the opportunity to trade across markets in a more affordable way. With fractional shares, there is no minimum for buying European or US shares and investors can invest with as little as \$1, irrespective of the stock price. Fractional shares trading is available on all Interactive Brokers platforms. ¹

Options Trading and Tools in IBKR GlobalTrader and IMPACT – these apps now include Options Chain, Option Exercise Tool and a new Options Wizard. The Options Wizard helps investors find options strategies that fit their market view. Investors respond to a few simple questions and can select options strategies based on their preferences and market expectations. ²

Expanded Cryptocurrency Trading – clients can now trade cryptocurrencies 24/7 in their IBKR-linked Paxos crypto account. Clients who elect to manage the funding of their crypto account themselves can pre-fund their crypto accounts at Paxos during regular US banking hours and then trade Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), and Bitcoin Cash (BCH), plus additional coins around the clock. Cryptocurrency trading has a low commission of just 0.12% to 0.18% of trade value, with a \$1.75 minimum commission per order, with no added spreads, markups or custody fees. ³

1. European stocks and ETFs listed on select exchanges, and with average daily volume above \$5 million and market cap above \$5 billion, are eligible for European shares trading. See ibkr.com/fractional for further details. Program eligibility may change according to country of residence.
2. See globaltrader.ibkr.com and impact.ibkr.com for further details. Options involve risk and are not suitable for all investors. For more information read the [Characteristics and Risks of Standardized Options](#), also known as the options disclosure document (ODD). Alternatively, call 312-542-6901 to receive a copy of the ODD.
3. See ibkr.com/crypto for further details. Paxos Trust Co. provides trading and custody services.

Recent Enhancements and New Products

IBKR EventTrader – event contracts lets clients express their view on whether the price of key futures markets will move up or down by the end of each day's trading session. They can select from event contracts in the Equity Index, Energy, Metals and Foreign currency futures markets, and to trade they can choose 'YES' or 'NO' on an event contract. For each event contract a client holds that expires "in the money", in reference to the underlying futures settlement price, they receive a fixed payout of \$20.00. The max profit per contract is \$20.00 minus the contract cost, fees and commissions. Event contracts are priced between \$0.25 to \$19.75 per contract and quoted in \$0.25 increments. Interactive Brokers offers a low, transparent commission of just \$0.10 per event contract.^{1,2}

Traders' Insight Radio – a new podcast series featuring interviews with executives, thought leaders and market experts from across the financial services industry discussing topical themes impacting global markets and trading.³

IBKR Economic Landscape – introduced on Traders' Insight, as part of the IBKR Campus. It provides insights from IBKR's Senior Economist, José Torres, on the state of the economy and on topics that could influence the direction of the dollar, such as inflation, key economic data releases and FOMC meetings.³
